

Dear Friends of Families First,

I wanted to give you a quick update on how things are progressing as we move forward with our new programming. There is a contract in place for the sale of the Children's Center. If all moves forward as expected, we will close in June. We are working on re-zoning the Family Center to accommodate the new therapeutic pre-school. In order to meet zoning requirements, we will need to make a few modifications to the basement area. I will keep you posted on those plans as we move forward.

The Children's Place, in Kansas City, MO continues to provide us with technical assistance to open the pre-school and has been wonderful to work with. They have been very supportive and are providing us essential information to ensure our programming is successful. They are working with a University in Kansas City to create an evaluation tool that both agencies can use to help monitor the children's progress in our programs.

We have started the first of two pilot groups for our new parenting program, Let's Connect. The first week was a success and we received wonderful feedback from the parents who are attending. Stay tuned for more updates as we move forward in our transition.

If you'd like to learn more about our programs or schedule a tour of our Family Center, please contact our office. We welcome the opportunity to meet with you.

Thank you,

Adam Robe

Families First Special Events!

We have a unique offering for our special events this year! We are offering two events on the same day in order to cut costs so that a higher percentage of the proceeds directly benefits our programs. We want you to have the best experience possible!

To purchase your tickets now please click on the picture above

Restaurant Fundraisers

We are partnering with restaurants in the community to raise money for our new programs. Please consider stopping by for dinner or picking up food to take home. Each of these locations asks that you always mention Families First when you pay and stop in during the designated hours listed.

Watch our twitter and facebook posts for upcoming information.
