

Let's Connect

We are heading into our final session of the pilot for Let's Connect. The pilot has gone well. Our participants have benefitted and learned from this program and are demonstrating that they are incorporating the skills they've learned. We hope that each family will leave the groups with a greater sense of "connection", positive communication, and supportive social emotional relationships in their families. We're looking forward to Pilot #2 to be held in August and September for our Spanish speaking families. A special thanks to all of the staff who have worked so hard to make this a success and to the creators of Let's Connect who are supporting us through this journey.

Therapeutic Preschool

We are completing the zoning and then working towards licensing of this program at our Family Center. We are receiving more interest in this program regularly. We are excited for the anticipated start date in August. We'll keep you updated as it progresses. Please call Adam Robe, Executive Director, if you have questions or would like to participate in this exciting program offering.
