

plays a role in preventing child abuse by providing education, family support, and treatment!

We all play a role in preventing **child abuse and neglect.**

April is Child Abuse Prevention Month

Everyone plays a role in preventing child abuse and neglect. Community professionals are working every day to strengthen families and protect children, but they cannot do it alone.

To end child abuse and neglect everyone needs to educate themselves and be willing to get involved if a family or child is struggling.

Even when kids experience child abuse or neglect, there is still hope for them to grow up to lead a happy and healthy life. When the community comes together to support and nurture children who have experienced trauma, children are given the knowledge and tools they need to overcome their struggles and thrive.

Families First's role in Child Abuse Prevention is helping families improve children's lives by providing education, family support, and treatment programs.

You, too, can play a role in prevention by making a monthly investment to improve the life of a child. Donate just \$25 a month and you will impact the life of one child, over a year. That's all it takes. YOU play a role in preventing child abuse and neglect!

Together we can improve the lives of children across Colorado!

Make an investment in a child here!

Child Abuse Prevention Kick Off and Rally

This year's Child Abuse Prevention Rally hosted at Colorado's State Capital was nothing short of amazing. Even though Colorado's weather can be quite unpredictable, it did not deter committed individuals from attending the rally and showing their support! Families First was lucky enough to have Emma, a committed Children's Group Volunteer, present at the event!

We Love Our Volunteers!

Families First would like to thank all our volunteers for another year of *helping families improve children's lives.*

We rely heavily on volunteers to continue offering quality programs for the children and families who participate.

Thank you for giving back to children, ensuring their homes are safe and that we are providing families the best education and support possible.
